Many guesses were received by Wm. Vest & Sons, as to the result of the election in Breckenridge county, placing Cleveland's majority over Harrison all the way from 33 to 800. Mr. D. C. Younger, of Bay St. Louis, Miss., guessed 800. He was probably estimating Kentucky majorities by Mississippi's majorities.

Chas. P. Sawyer, of this city, was the lucky man, his guess being 345, and the majority was 320. One thing was noticeable; among the questions no one that Harrison or Weaver would carry the county, while people of all political persuasions did guessing.

WHAT IT MEANS.

Speech of Gen'l A. J. Gross at the Cloverport Ratification Meeting.

As the ratification in this city last week was held on the night that we go to press, we could not give as complete an account of the proceedings as we wished, and while there were many things that occurred that would have made a good reading matter then, they are a little too stale for this issue. However, the remarks of Gen. A. J. Gross on the occasion are too good to omit.

General Gross was called from the crowd, and being full of enthusiasm and good feeling, mounted the rostrum and said:

FELLOW DEMOCRATS:—Though almost too weak to-night to stand up, I will say a few words. We are ratifying to-night the grandest political victory ever achieved in this country. It is a complete triumph of the "masses over the classes"; a recognition of the rights of the plain people of America. Yes, it means "equal rights to all, and exclusive privileges to none"; it means a speedy and just revision of the tariff laws of this country, which according to the Democrat definition, denies to the federal government the right to collect from the people, in the way of taxes, more money than is absolutely needed to meet the current expenses of the government, honestly and economically run; it means the strictest economy in every department of the federal government; it means no more class legislation, no Force bill; no federal supervisors and deputy marshals at the polls to interfere with the sacred rights of the people (applause). It means a free ballot and a fair count; it means that the American people may buy their supplies where they can be had for the least money; in fine, it means less of McKinleyism and more of free trade, (applause). It means better government and better times generally, more contentment, happiness and prosperity among the masses; it means Democrats in office, in place of Republicans, (applause); it means that the honest American voter cannot be bought; it means the North-west will join the South upon all economic questions, (applause); it means that we had in the contest just closed, a patriotic, courageous and sagacious leadership in Grover Cleveland and Adlai E. Stevenson, (loud cheers for Cleveland and Stevenson).
